

IF THE ONTARIO GOVERNMENT WON'T PROTECT YOU, WHO WILL?

In 2010, the Ontario Liberals allowed auto insurers to bolster their already sizable profits by cutting benefits for all auto accident victims. Now they are at it again. A recent government report, if adopted, would limit coverage for those who suffer the most devastating catastrophic injuries.

So, if you or your loved ones are involved in a serious car crash, you may have to pay hundreds of thousands of dollars for the medical, rehabilitation and support you need. Your insurance coverage would not be the same – it would be drastically reduced.

“As health care professionals, we treat thousands of Ontarians injured in automobile accidents each year.

We’re already seeing the devastating impact of the last cuts. We’re alarmed that if there are further reductions, far fewer will get the treatment when they need it most.”

Left to right: Ray Petrauskas, Consultant in Neuropsychology; Melanie Hay, Occupational Therapist; Dr. Sukhvinder Kalsi-Ryan, Physical Therapist, Clinician Scientist; Lynne Harford, Social Worker; Rosa Echevarria, Physiotherapist; and Agnes Agnelli, Occupational Therapist.

Tell the government to protect the people of Ontario and say NO to the insurance companies. Stop yet another auto insurance “reform”.
